Special Stitch

sc2tog (single crochet 2 stitches together) = [Insert hook in next stitch, yarn over and pull up a loop] twice, yarn over and draw through all 3 loops on hook.

Notes

- 1. Before beginning, separate the different color sections of the yarn as follows: Pop the center color out by pushing gently on the center of the ball so that it comes out intact. Find the point where the color changes and cut the yarn. Repeat this process for the remaining yarn colors by carefully pushing the rings of color out of the larger ring and cutting. Wind each color into a ball to prevent tangling. You may find that one color appears both in the center, and on the outside of the ball, wind together or separately. In the pattern instructions, the yellow color is referred to as A, the black as B, the white as C, and the silver as D.
2. Bee is made from 9 pieces: Head/body, 2 wings, and 6 legs.
3. Head/body and wings are worked in continuous rnds (spiral) with right side always facing. Legs are worked in one row.
4. Pieces are sewn together using yarn tails or yarn scraps.
5. Pattern contains instructions for making two identical bees in different colorways, colorway #1 and colorway #2.
6. Yarn color is changed to form stripes on bee's body. To change yarn color, work last stitch of old color to last yarn over. Yarn over with new color and draw through all loops on hook

to complete stitch. Carry color not in use along the inside of the piece until next needed.
7. Take care to attach safety eyes before head opening becomes too small. Do not use safety eyes if toy is intended for a child 2 years of age or younger.
