Kitrick the Leprechaun

This lucky little leprechaun has actually found his pot o' gold! Crochet him to add to the festive spirit of St. Patrick's Day.

Materials

Yarn needle, stitch marker, fiberfill, one pair 12mm safety eyes, 2 yellow tiny buttons, 4 green tiny buttons, sewing needle and matching thread, small amount of red yarn or embroidery floss (for mouth), two 20" (51cm) lengths of floral stem wire (for pose-able leprechaun – optional), duct tape (for pose-able leprechaun – optional)

Special Stitches

popcorn = 4 dc in indicated stitch, remove hook from loop, insert hook from front to back in first dc of 4-dc group, place dropped loop back on hook and draw through.

sc2tog = [Insert hook in next stitch, yarn over and pull up a loop] twice, yarn over and draw through all 3 loops on hook.

sc3tog = [Insert hook in next stitch, yarn over and pull up a loop in next st] 3 times, yarn over and draw through all 4 loops on hook.

Special Technique

Adjustable ring method—Holding the yarn a few inches from the end, wrap around your finger. Do not remove wrap from finger, insert hook into the wrap and draw up a loop of working yarn. Chain one to secure the loop, and remove ring from finger. Work stitches of first round in the ring. Pull gently, but firmly, on tail to tighten ring.

Notes

1. Leprechaun is worked in pieces that are sewn together. Stem wire can be inserted into the arms, legs, and neck to make him pose-able before sewing all pieces together
2. Gauge is not critical for this project, but work tightly to ensure that stuffing does not show through stitches.

3. To change color, work last stitch of old color to last yarn over. Yarn over with new color and draw through all loops on hook to complete stitch. Proceed with new color. In some cases, the old color can be carried up the wrong side (inside) of the piece when next needed. This will reduce the number of ends to weave in later.

Leprechaun measures 14" (35.5 cm) tall, including hat

Slip st in next st. Fasten off. Stuff head. With yarn needle and F, embroider straight stitches across top of head for hair. Begin by sewing a long straight stitch from one side of top front of head to back center of head to define the part. Then embroider straight sts across the head from the part to the sides of the head. Keep working stitches between the part and sides of head, gradually working towards the back of the head. Keep the stitches very close together, even allowing them to overlap from time to time. Vary the length of the stitches to approximate the look of real hair. Work longer stitches over the top of the head and shorter stitches near the lower edges of the sides to add texture and make shaping the lower edges of the hair easier. Embroider shorter

straight stitches near the front of the part for a cowlick and on either side of the front of the face for sideburns.

Notes: It is important to stuff the head before embroidering the hair to prevent the head from puckering as the stitches are worked. Pay attention to the tension of the stitches as you want them to be tight enough to sit smoothly on the head, but not so tight that they deform the head. Stuffing may stick to the needle as you embroider. Take care not to pull the stuffing all the way through to the outside.

EARS (make 2)

With H, ch 4.

Row 1: Working in back bars, slip st in first ch from hook sc in next ch, dc in next ch, slip st in last ch. Fasten off. Arrange ears on either side of head, behind the sideburns (spread some of the straight sts apart slightly for ear placement) and even with the nose. Sew ears in place.

FINISHING

When assembling leprechaun, add stuffing as you sew to ensure that leprechaun is well-padded. Do not stuff so firmly that stuffing shows through stitches.

Pose-able Leprechaun (optional)

Bend up the ends of each piece of floral stem wire about ½–1" (1.5–2.5cm). Wrap the bent ends with duct tape to secure and cover any sharp edges. Fold one piece of wire in half. Twist the top (fold) of the piece (this end will be inserted into the neck later). Insert one end of bent piece into each leg. Stuff the legs firmly, distributing the stuffing evenly around the wire. Twist the center of the second length of wire around the first length about 2" (5 cm) from the top (**Hint:** Hold jacket in place over legs to see where sleeves line up before twisting second length around first length). Wrap twist with duct tape to secure second length of wire to first. Insert one end of second length into each sleeve. Stuff sleeves firmly, distributing the stuffing evenly around the wire. Sew the jacket to the top of the legs. Sew under the lower edge of the jacket (about 3 rows up from lower edge) and sew to legs about 3 rows from top edge of legs. Stuff the body of the jacket firmly. Use your finger to make a hole in the stuffing of the neck. Insert the

twisted end of the first length of wire into the opening and insert neck into top of jacket. Take care to keep collar on the outside. Sew neck into opening at top of jacket, sewing through second row of neck. Add more stuffing as you sew, distributing it evenly around the wire and ensuring that the neck is sturdy. Sew bowtie to front of neck. Stuff hat and sew to top of head.

Leprechaun Assembly (if not pose-able)

Stuff legs firmly. Stuff sleeves and jacket firmly. Sew the jacket to the top of the legs. Sew under the lower edge of the jacket (about 3 rows up from lower edge) and sew to legs about 3 rows from top edge of legs. Sew neck into opening at top of jacket, sewing through second row of neck. Add more stuffing as you go to ensure that the neck is sturdy (**Hint:** Insert a short length of wire or dowel to increase the sturdiness of the neck). Sew bowtie to front of neck. Stuff hat and sew to top of head. Weave in any remaining ends.
