Tunisian Two-Texture Scrubby

Here's a Scrubby that does double duty! One side is Scrubby Smoothie (gentle cotton) and the reverse is original texturedScrubby. The Tunisian crochet technique is used to make this split-personality, two-sided scrubby.

Scrubby measures 3¾" wide x 5" long (9.5 x 12.5 cm).

Notes

1. Tunisian crochet is worked with one side facing at all times; do not turn at the end of a row. Each row consists of a forward pass and a reverse pass.
2. Always skip the first vertical bar when working the Forward Pass. Insert the hook into the 2nd vertical bar at the beginning of the row. In last stitch, always work from front to back through 2 vertical strands.
3. If you hold the hook in your right hand, you will work the forward pass, picking up loops, from right to left. And you will work the return pass, working off loops, from left to right. If you hold the hook in your left hand, work the forward and return passes in the opposite directions.

Special Stitches

surface slip st (surface slip stitch) =

With yarn held on underside, insert hook in indicated stitch, yarn over, pull loop to right side and through loop on hook.

Tps (Tunisian purl stitch) = Bring yarn to front, insert hook under next front vertical bar as if to work Tunisian simple stitch, bring yarn across front of vertical bar and to back, yarn over and pull up a loop.

Tss (Tunisian simple stitch) = Working from right to left, holding working yarn behind work, insert hook under next vertical bar, yarn over and pull up a loop.

Tss2tog (Tunisian simple stitch decrease) = Working from right to left, holding working yarn behind work, insert hook under next 2 vertical bars, yarn over and pull up a loop.

FINISHING

With wrong sides together, fold scrubby in half at Row 22 and hold with **A**-side facing. With standard hook, draw end tail through to underside of piece.

Optional To minimize weaving in, tuck in ends between sides.

Joining Row: Working through both thicknesses of 3 sides and holding tail under piece throughout, insert hook in end of row nearest fold and pull up a loop, surface slip st in ends of rows of both edges and in sts across bottom edge, easing to fit as needed. Fasten off. Weave in ends.
